

Figure 1: A plot of the number of cells in the brain (Y-axis) versus the number of cells in the body (X-axis) for female subjects who are sleep-deprived (T). The plot shows a complex, branching structure, likely representing a dendritic tree or a similar biological network. The X-axis ranges from 0.3 to 0.7, and the Y-axis ranges from 0.1 to 0.5. The structure is composed of many small, interconnected segments, forming a dense, interconnected network.
